

Australian Government

Many household chemicals can be used to build a bomb.

I am storing it for a friend

No, I want to pay cash for these chemicals

I am just stocking up in case I run out

Why do you need to know what I am using it for?

I know it's a lot of fertiliser, what's it to you?

No, I don't have an ABN

Ammonium perchlorate Sodium azide Hydrogen peroxide Nitric acid Nitromethane Sodium chlorate
 Sodium nitrate Potassium nitrate Potassium perchlorate Sodium perchlorate Ammonium perchlorate Sodium azide
 Potassium chlorate Sodium nitrate Sodium chloratedichloride Potassium chlorate Sodium nitrate Potassium nitrate
 Sodium azide Potassium perchlorate Sodium perchlorate Ammonium perchlorate Sodium azide
 Potassium perchlorate Sodium perchlorate Hydrogen peroxide Nitric acid
 Ammonium perchlorate Sodium azide Hydrogen peroxide Nitric acid Nitromethane Sodium chlorate
 Sodium chlorate Sodium nitrate Potassium nitrate Potassium Sodium perchlorate Ammonium perchlorate Sodium azide Nitric acid
 Sodium nitrate Potassium nitrate Potassium perchlorate Sodium perchlorate Ammonium perchlorate Sodium azide Nitric acid
 Nitromethane Sodium chlorate Sodium Potassium perchlorate Ammonium perchlorate
 Sodium chlorate Sodium nitrate Sodium azide
 Sodium azide
 Phosgene
 Hydrogen peroxide Nitromethane Methidathion Sodium azide

The smallest piece of information could help defuse a lethal situation.

Many chemicals we use every day have been used in terrorist attacks such as those in Bali, London and Mumbai. If you notice anything suspicious about the purchase, storage, transport or use of chemicals, call the National Security Hotline and report your suspicions.

Help keep Australia safe from terrorism.
